7 by twice the level required under subsection (c).

8 (e) THIRD FAILURE.—If the Secretary determines
9 under subsection (a) that a manufacturer has failed to

25 ure, the following additional measures shall apply:

1 (1) The manufacturer shall for each unit of its
2 tobacco products increase the price it charges by the
3 level prescribed by subsection (d).

4 (2) No retailer may sell the tobacco products of
5 the manufacturer in quantities smaller than a car-

7 (3) The manufacturer may package its tobacco

11 (g) EFFECTIVE DATES.—

12 (1) PRICE INCREASES.—If the Secretary deter-

5 section (a) that the manufacturer has achieved the
6 applicable performance objective for an annual per-

8 (h) ADJUSTMENTS.—

9 (1) GENERAL RULE.—The amount of any price
10 increase that is required under this section shall be
11 increased by the percentage increase in the Con-

15 (2) LIMITATION.—The maximum price increase
16 that shall be required under this section for a unit
17 of a tobacco product is \$2 plus an adjustment for
18 inflation under paragraph (1).

19 (i) CALCULATION OF PERCENTAGE POINTS.—For
20 purposes of determining the level of price increase under
21 this section, the number of percentage points by which a
22 manufacturer fails to achieve a performance objective shall
23 be calculated as follows:

24 (1) MANUFACTURER WITH CHILD TOBACCO USE
25 LEVEL AT OR BELOW ITS BASELINE LEVEL.—If the

1 manufacturer is an existing manufacturer which has
2 a baseline level above the de minimis level and a
3 child tobacco use level equal to or below its baseline
4 level, the number of percentage points shall equal
5 the difference between the percentage reduction in
6 its child tobacco use level required to meet the appli-
7 cable performance objective and the percentage re-
8 duction in its child tobacco use level achieved by the
9 manufacturer.

10 (2) MANUFACTURER WITH CHILD TOBACCO USE
11 LEVEL ABOVE ITS BASELINE LEVEL.—If the manu-
12 facturer is an existing manufacturer which has a
13 baseline level above the de minimis level and a child
14 tobacco use level above its baseline level, the number
15 of percentage points shall equal the sum of the per-
16 centage reduction in its child tobacco use level re-
17 quired to meet the applicable performance objective
18 and the percentage by which its child tobacco use
19 level exceeds its baseline level.

20 (3) EXISTING MANUFACTURER WITH A BASE-
21 LINE LEVEL BELOW THE DE MINIMIS LEVEL OR
22 NEW MANUFACTURER.—If the manufacturer is an
23 existing manufacturer which has a baseline level
24 below the de minimis level or if the manufacturer is
25 a new manufacturer, the number of percentage

1 points shall equal the percentage by which its child
2 tobacco use level exceeds the de minimis level.
